Start-Up/Performance Check Form

It is important that we understand and are prepared for the job conditions prior to the visit. To avoid any confusion and possible charges for a second start up attempt, please check off the items which apply and return promptly. Any requests for service outside that which is factory specified in the start up will be the responsibility of the customer and/or dealer requesting such service. Equipment has or will be demonstrated by an authorized factory representative. Please note that service agencies are not trained to demonstrate equipment.
